& elevate

**ARTAFEX OUTDOOR**

Introducing the Artafex Outdoor line of high-quality, low-voltage lighting, hand-picked to integrate. Turn your outdoor project into a masterpiece.

# Integrating Excellence

We bring the same promise that we've kept with professional lighting designers — a fusion of timeless design, unparalleled quality, and enduring performance.

## Hand-picked for Custom Integration

We've carefully selected a collection of outdoor lighting fixtures designed to elevate residential landscapes, making them the perfect choice for both discerning integrators and homeowners.

## Elevate the Everyday

Paint with light to focus attention and accentuate natural beauty. Our lighting seamlessly integrates with your chosen controls, guaranteeing synchronized and elevated experiences for both residents and guests.

## FEATURES

- Machined from solid aircraft grade (6061-T6), corrosion resistant aluminum, then anodized and powder coated to create a highly durable, marine grade finish.
- IP67 Rated, water immersion and dust protected
- Fully adjustable glare shield design
- Patented THERMOBUSTER™ SORAA lamp design
- Hydrophobic lense coating ensures clean light for years to come.
- Every fixture tested end of line for water tightness and light quality.
- Includes 36" lead wires and LightingShrink® connectors for fast and watertight installation.

## Beyond Illumination

We design our fixtures to see the light, not the fixture. Our light quality and projection goes farther. The low field-angle reflector design puts light where you want it and eliminates hot spots near mounting. Our fully adjustable Glare Shield provides additional light and focused control.

## Intelligent Design

- Flexible swivel/lock system provides maximum rotation for exceptional adjustability and durability
- Modular LED engine and lamp design ensures lights can easily change and adapt with your outdoor environment.
- Thoughtfully designed weep holes keep standing water and debris from affecting performance
- Easy to open and service, stays water tight

## Lifelong Performance

With premium materials and years of design expertise, we ensure our lights withstand environmental effects and the test of time.

# Accent & Landscape

Our small but capable accent lights range in size from 1.25 to 2.25" in diameter ensuring you experience the light and not the fixture.

Use our compact ARTOAL08 for smaller features and when lower light levels are preferred.

The ARTOAL11, with integrated HK LED, and our ARTOA16 models, with on-board SORAA LED Lamp technology, are the workhorses for residential outdoor architectural and landscape environments.

For the ARTOA16, choose our celebrated modern side pivot design or more traditional center pivot aesthetic. Both versions deliver exceptional light in the same way.

### ARTOAL08

Discrete 1.25" accent light highlights smaller plants without being seen. It is also perfect for in-tree and architectural mounted applications. The HK LED light engine is maintenance free with extended life.

### ARTOAL11

Versatile 1.65" accent light is your choice for integrated LED landscape lighting. Compact and powerful, it is perfect for illuminating residential trees and architectural elements. The HK LED light engine ensures light performance for 50,000 hours of use.

### ARTOA16 / ARTOA16 Center Pivot

Prefer a lamp based solution for your residential landscape needs, both our modern and traditional center pivot 2.25" accent lights include the flexibility of an included SORAA high performance LED MR16 lamp.

- US patented integral SORAA® heat sink increases light quality and lamp life.
- Select from side or center pivot designs

# Flood & Wall Wash

ARTOFL08

ARTOFL16

Whether illuminating soft structured ground plants or broad architectural features, our flood light and wall wash offering combines their small footprints and capable LED.

### ARTOFL08

Our newest design, this 1" square flood light throws a broad pool of soft illumination a short distance from its mounting position. The integrated glare shield minimizes fixture visibility making it a perfect solution for arid landscape plantings and small architectural features.

### ARTOFL16

Compact yet powerful, this 2" versatile floodlight throws strong and even light distribution. It can be used on its own or with several to highlight architectural walls and large hedges or areas of similar landscape, where even lighting is preferred.

# Path & Bollard

With expertly crafted materials and timeless design, these fixtures accentuate and illuminate while enhancing wayfinding and safety. Their tiny 1" diameter profiles and quality optics ensure focused light with discretion.

### ARTOPLMB-R1

Elegant 1" round mini post light delivers a smooth 180° field of illumination. Perfect for lighting both pathways and lower height plants and ground cover. Thoughtful design minimizes fixture footprint and provides a beautiful alternative to traditional 'top hat' applications.

### ARTOPLMB-R2

Strikingly beautiful 1" round mini post light delivers fields of illumination from both sides of the fixture. Perfect for modern designs where high contrast lighting solutions are preferred.

### ARTOPLLT

Simple and elegant 1" square design delivers a smooth 360° pool of illumination. Available in both 12" and 24" heights and highly complements modern residential designs.

### ARTOPL11

Essentially our 1.65" versatile ARTOAL11 accent light on a stick, this path light provides directional light that can cross wide paths, accent signage, and areas of interest like architectural details and artwork.
